

MP SERIES

COMMERCIAL & INDUSTRIAL PUMP SKIDS

Features

- Completely assembled and wired for quick installation
- Single point power supply
- Easy interface with BMS via BACnet
- User friendly display terminal
- Custom designs available
- Wide range of optional components

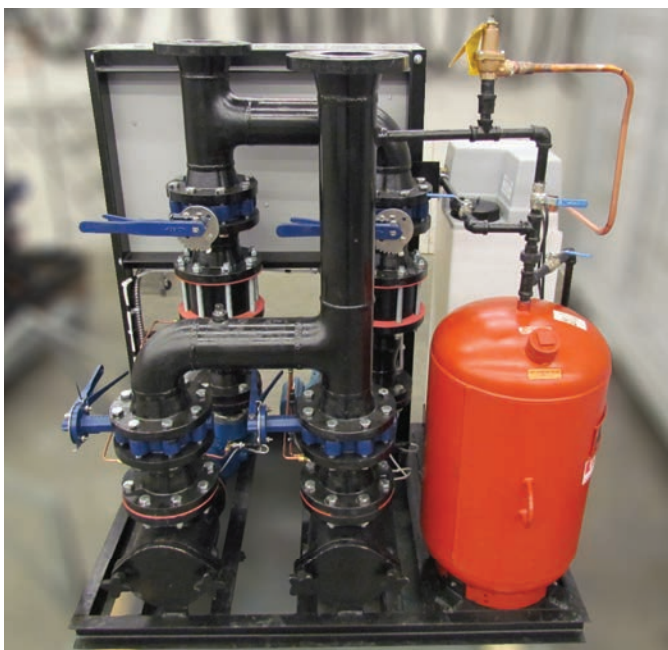

EngA®

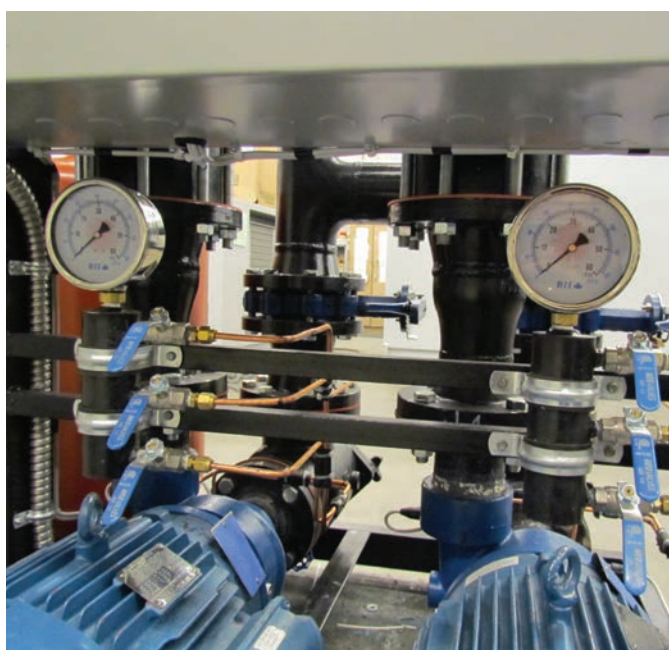

ENGINEERED AIR®

Creotech

WWW.ENGINEEREDAIR.COM

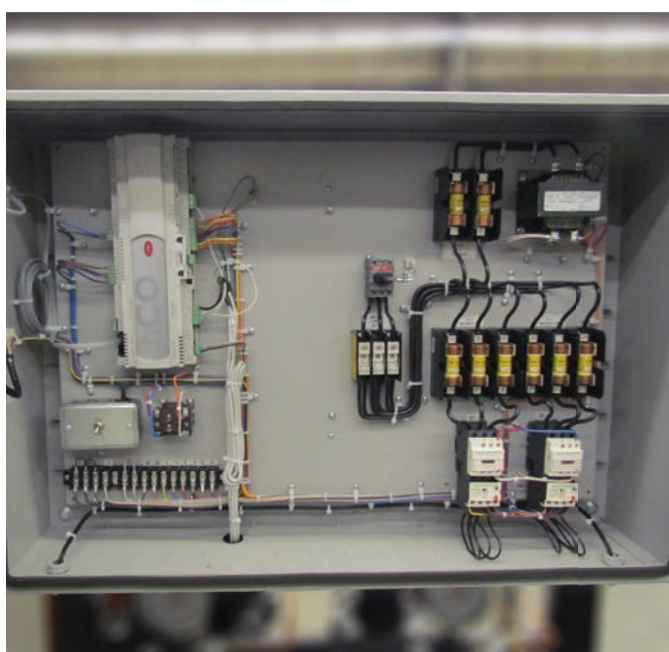

Engineered Air offers a cost effective, compact and efficient pumping package for chillers, fluid coolers, heat pumps and process cooling applications.

Efficiency - Pumps are selected to operate at the highest efficiency rating based on the flow and head pressure required. High efficiency motors are standard with all pump skids.

Reliability - Pumps are designed with enclosed impellers for long life and quiet operation. Tight tolerances between the impeller eye and the case or wear ring provides maximum efficiency.

Serviceability - Easy access to components. Unit mounted LCD control screen provides quick information to all operating points.
